Printer

Color Video Printer (OEP-5)

The Olympus OEP-5 Color Video Printer is compatible with full High Definition to deliver the same high-definition printing with excellent color reproduction. Even at the highest image quality, the OEP-5 prints in just 29 seconds per sheet (A5 size), or 21 seconds in high-speed mode.

Key Benefits

High-definition printing: The printer provides high-definition printing with accurate reproduction of HDTV, SD and SDI signals.

Advanced color reproduction: Compared to conventional-type printers, the OEP-5 delivers excellent color reproduction.

Fast printing output: Even at the highest image quality, each sheet prints in only 29 seconds (A5 size), or 21 seconds in high-speed mode.
